Just made some minor suggested edits to 404 (g) as well via sharepoint so you will see those edits live. I think we should consider putting a title of OW-OWOW somewhere in the paper to remind the Administrator who is doing this great work. ☺

John,

Some formatting inconsistencies in the attached so I made some minor suggested changes for your consideration. Also want to make sure that we are clear about what EPA we are talking about OEPA, Region 5 EPA, and the EPA. The examples might all be correct but my interpretation is that if WRAPD used just the EPA they are talking about EPA HQ.

Also note that this format is different from the WOTUS paper.

If you have a preferred format, I am happy to get all of the paper looking the same.

John –

Here's the draft for Ohio 303(d). We confirmed with OST that this is all 303(d) and there's not an additional WQS issue.

Thanks to Chris Lewicki for preparing this.

Folks— looks like 2.5 of these are ours— please draft for my review by noon tomorrow. Mike, the NACEPT one is Assumable Waters. Jim, please coordinate with Deborah's folks in OST on the Ohio action— since not actually a regulation, you have a bit more flexibility in characterizing the issue. Thanks!

These are for the Administrator. I assume the nacept issue is the Assumable water issue but that was how it was listed in the topics.

Thanks, Ann. Is the audience Dave? OP? Other? With one page, that will help us tailor.

Also, is NACEPT the CWA 404 Assumable Waters issue?

Thanks
